Skills available for Common Core seventh-grade math standards Standards are in black and IXL math skills are in dark green. Hold your mouse over the name of a skill to view a sample question. Click on the name of a skill to practice that skill. IXL - Common Core seventh-grade math standards In seventh grade math, Common Core students begin to learn about probability. Probability is the study of how likely something is to happen. Students develop theories about probability and then test these theories with experiments. The common example is flipping a coin. If the coin isn't weighted, if you let it hit the ground, and if you don't otherwise

interfere with the flip, then the probability of getting heads is.
