CHAPTER 200 GEOMETRIC DESIGN AND STRUCTURE STANDARDS The objective of this technical committee is to provide a focal point and working group for

developing and recommending AASHTO geometric design criteria. This assignment includes formulating new and revised criteria to keep current all geometric design standards, policies, and guidelines. Geometric Design - Transportation.org On top of that, AASHTO said the first chapter of the new manual - entitled "New Framework for Geometric Design" - also introduces a "new approach" in terms of how functional and context classifications can be used together to create more "flexible and performance-based" designs for new projects as well as for existing roads.
