By Arthur Beiser - Concepts of Modern Physics: 6th (sixth ... Concepts of Modern Physics. Arthur Beiser. Modern Physics is the most up-to-date, accessible presentation of modern physics available. The book is intended to be used in a one-semester course covering modern physics for students who have already had basic physics and calculus courses. The balance of the book leans more toward ideas than toward experimental methods and practical applications because the beginning student is better served by a conceptual framework than by a

mass of details.
