Properties and Soil Change. By Skye
Wills, Candiss Williams, and Cathy
Seybold, USDA-NRCS. Dynamic soil

properties (DSPs) are properties that change with land use, management, and disturbance over the human time scale (decades to centuries). In contrast, inherent soil properties (e.g., soil texture) change little, if at all, with changes in land use and management. SSM - Ch. 9. Assessing Dynamic Soil Properties and Soil ...
