Biodiversity Planning and Design: Sustainable
Practices Ahern shows how an interdisciplinary
approach led by planners and designers with
conservation biologists, restoration ecologists, and
natural and social scientists can yield successful results
and sustainable practices. Minimizing habitat loss and
degradation - the principal causes of biodiversity
decline - are at the heart of the planning and design
processes and provide landscape architects and
planners a chance to achieve their professional goals
while taking a leading role in the ... 9781597261081 -
Biodiversity Planning and Design ... How do you
measure biodiversity, and why should landscape
architects and planners care? What are the essential
issues, the clearest terminology, and the most effective
methods for biodiversity planning and design? How can
they play a role in biodiversity conservation in a
manner compatible with other goals? These are critical
questions that Jack Ahern, Elisabeth Leduc, and Mary
Lee York answer ... Biodiversity Planning and Design:
