confession to make. (PDF) Biopolitics and the 'Obesity Epidemic' One of the most powerful and pervasive discourses currently influencing ways of thinking about health and about bodies is that of the 'obesity epidemic'. This has, in turn, generated a counter argument from a range of perspectives. While there has been considerable recent theorising of the issue in the context of fat studies, there has been less attention to how the discourses associated with the obesity epidemic have had an impact on populations and specific sections of populations.
