... About 3-4% of full-term babies are breech; term is from 37-42 weeks gestation. During the month before 30 weeks, many babies are breech. The breech baby is vertical, so the womb is “stretched” upwards. This makes it easier for the breech baby to flip to head down around 28-32 weeks. Breech Baby - A Guide to Breech Presentation - Spinning Babies In 2001 a report came out, The Hannah Trial, which suggested that it was safer for a breech baby to be born by caesarean. The methodology of this trial has subsequently been considered suspect and it only considered a caesarean

and a breech delivery. A breech delivery means the woman was flat on her back with legs in stirrups. Complete Guide for Breech Babies - KG Hypnobirthing A baby is not considered breech until around 35 or 36 weeks.
