Modern Approach was popular with students and faculty alike because of its clarity and comprehensiveness as well as its trademark Q&A sections. Professor King's spiral approach made it accessible to a broad range of readers, from beginners to more advanced students. C Programming: A Modern Approach | K. N. King | download I've been working through King's fantastic C Programming: A Modern Approach 2nd Ed (seriously, this might be the best textbook I've ever read) and there are a few asides and problems devoted to UNIX systems and the GCC. They were easy to ignore at first, but now that I'm entering the meat of program organization, I'm realizing just how automated Visual Studio makes linking files. C
