Clinical Perspectives In Nursing Research Addressing challenges due to the COVID-19 pandemic – A site and investigator perspective Priya Ranganathan, Deepa Nair, Nithya Jaideep Gogtay The coronavirus disease-19 pandemic has affected all aspects of health care including clinical research, as the focus of health-care systems has shifted to maintaining essential care. Perspectives in Clinical Research : Free full text ... About this journal. Clinical Nursing Research (CNR) is a peer-reviewed quarterly journal that addresses issues of clinical research that are meaningful to practicing nurses, providing an international forum to encourage

discussion among clinical practitioners, enhance clinical practice by pinpointing potential clinical applications of the latest scholarly research, and disseminate research findings of particular interest to practicing nurses. Clinical Nursing Research: SAGE Journals Developing our Clinical Research Nursing Strategy 2017-2020. Dr Susan Hamer, NIHR Clinical Research Network, Director of Nursing, Learning and Organisational Development. Introduction. The NIHR has a mission to “provide a health research system in which the NHS supports outstanding individuals working in world class facilities, conducting leading edge research focused on the needs of patients and the public”. Developing our Clinical Research Nursing

Strategy Clinical nursing research is a systematic inquiry into the problems encountered in nursing practice and into the modalities of patient care. Clinical nursing practice without clinical nursing research is clinical nursing practice built on instincts without validation. Clinical nurse researchers should strive to develop partnerships with clinical nurses. Clinical nursing research: Its meaning to the practicing
