## Read Online Conceptual Physics Chapter 7 Momentum And Energy Answers

Conceptual Physics Chapter 7 Momentum The product of the mass of an object and its velocity. Impulse. The product of the force acting on the object and the time during which it acts. (Impulse =  $Ft$ ) Impulse - Momentum Theorem. Impulse is equal to the change in momentum of the object that the impulse acts upon. ( $Ft = \Delta mv$ ) Law of Conservation of Momentum. Chapter 7: Momentum - Conceptual Physics Flashcards | Quizlet Conceptual Physics Chapter 7 Momentum study guide by Student247365 includes 15 questions covering vocabulary, terms and more. motion. Chapter 7 Momentum - Loudoun County Public Schools Title: Conceptual Physics - Chapter 7 Test: Momentum Author: Teacher Last modified by: LOPILATO, PAM Created Date: 5/24/2016 5:38:00 PM Other titles Conceptual Physics - Chapter 7 Test: Momentum It takes the same impulse to decrease your momentum to zero. The same impulse does not mean the same amount of force or the same amount of time; rather it means the same product of force and time. By hitting a haystack instead of a wall, you extend the time during which your momentum is brought to zero. A longer time interval reduces the force and decreases the resulting deceleration. Answers (a) Momentum = (mass)(velocity) = (8 kg)(2 m/s) = 16 kg m/s (b) After the ball stops, its momentum = 0, so the change in momentum of the ball = 0 kg m/s - 16 kg m/s = -16 kg m/s. Since impulse = change in momentum, the impulse required to stop the ball = -16 kg m/s = -16 Ns. Physics - Ch 7
