Block's Disinfection, Sterilization, and Preservation Now in its thoroughly revised, updated Fifth Edition, this volume is a comprehensive, practical reference on contemporary methods of disinfection, sterilization, and preservation and their medical, surgical, and public health applications. More than a third of this edition's

chapters cover subjects never addressed in previous editions. Disinfection, Sterilization, and Preservation: Seymour S ... Depending on the purpose of decontamination either disinfection or sterilization can be used. Disinfection only reduces the number of harmful microorganisms whereas sterilization is the method of complete removal of the microorganisms. Furthermore, disinfection has wide use in daily life and practicality whereas sterilization has wide use in surgical operations or in labs where the sterile condition is necessary. This is the difference between sterilization and disinfection. Reference: Difference Between Sterilization and Disinfection ... Disinfection, Sterilization, and Preservation, 5th ed. SS Block, ed.;
