Manual for Municipal Wastewater Stabilization Ponds Aerated lagoons Additionally, this chapter describes the requirements for use of hydraulic control release lagoons for effluent disposal. A guide to provisions for lagoon design is the EPA publication Design Manual - Municipal Wastewater Stabilization Ponds, EPA-625/1-83-015. 9.1.1 Applicability CHAPTER 9 Ponds and Aerated Lagoons United States Environmental Protection Agency | US EPA United States Environmental Protection Agency | US EPA The purpose of this manual is to provide guidance on landfill site design so as to prevent or reduce as far as possible negative effects on the environment. Guidelines are presented for the design of landfill liner

systems, leachate management systems, for landfill gas management and for the final capping system. LANDFILL MANUALS LANDFILL SITE DESIGN depending on the design conditions. An aerated lagoon can usually discharge throughout the winter while discharge may be prohibited from an ice-covered facultative lagoon in the same climate. Sludge disposal may be necessary but the quantity will be relatively small compared to other secondary treatment processes. Disadvantages Aerated lagoons are not as effective as facultative ponds in ... United States Environmental Protection Agency Wastewater ...
