EPLAN Ranging from the automotive and energy technology through to process industries: EPLAN is used wherever integrated processes from engineering through to manufacturing are in demand. We are hereby making an important contribution to implementing current trends such as digitisation and Industry 4.0. EPLAN Education for Students EPLAN Electric P8 is a consistent, integrated and fast engineering system for you to plan and design the electrical

engineering for machines and plant systems. The software supports a wide variety of engineering methods: from manual creation through to standardised and template-based approaches. EPLAN Electric P8 EPLAN Pro Panel Integrated Design in 2D and 3D for Panel Building and Switchgear System Engineering EPLAN Pro Panel gives you a stable foundation for automating and industrialising your panel building. It enables 3D design and construction of control cabinets, switchgear systems and power distribution systems for energy distribution. EPLAN Pro Panel EPLAN provides software and service solutions in the fields of electrical, automation and mechatronic engineering. We develop one of the world's leading

design software solutions for machine, plant and panel builders. "Efficient engineering" is our focus: EPLAN is the ideal partner to streamline challenging engineering processes. EPLAN – efficient engineering. What is the EPLAN Platform? Up-to-date, digital data lays the foundation for efficient engineering. The EPLAN Platform connects all EPLAN software solutions to one another, and forms the basis for the expert systems that you use to create projects, thus creating transparency in your engineering processes.. Integration is Everything: EPLAN Fluid You can now create special overview pages in EPLAN Fluid for the simplified representation of complex fluid-technology functions. EPLAN Platform, Version 2.8 By closely collaborating with our customers, EPLAN have benchmarked several panel and machine builders by evaluating workflows and the time taken to

produce a single unit, and have found that the majority of panel builders in the UK and USA are working manually, therefore, there is a need for action to shift from manual to semi-automated engineering. Panel Building Assessment - EPLAN USA The EPLAN CAE design software platform forms the basis for your engineering by connecting our engineering software solutions to each other. This means that you will become more efficient when working on your EPLAN project because digital data flows seamlessly from one solution to another and is further enriched in every process step.
