Greening The Supply Chain A But what do we mean by 'greening' the supply chain? In essence, it is quite simple. Any organisation that produces or supplies goods or services needs to review its supply chain to assess the risk that any element within that supply chain is not following best practice regarding sustainable production. 'Greening' the supply chain | ICAEW When a supply chain becomes greener, waste is driven from it. When waste is driven from your supply chain (or any process), the cost of that process is reduced. When costs are reduced - everybody's happy. And of course, as a positive side-effect of greening
