persists unabated and companies remain slow to invest in information security. Engaged in a bottom-up investigation, Harboring Data reveals the emergent nature of data leakage and vulnerability, as well as some of the areas where our current regulatory frameworks fall short."--Jacket. Harboring data : information security, law, and the ... The future of both law and technology will require reconciling users' desire to self-disclose information with their simultaneous desire that this information be protected. Security of personal information and user privacy are potentially irreconcilable with the conflicting set of user preferences regarding information sharing behaviours and the convenience of using technology to do so. Data
