In addition to damaging workers' quality of life, occupational hearing loss carries a high economic price to society. NIOSH

Recommendations: The NIOSH Recommended Exposure Limit (REL) for occupational noise exposure is 85 decibels, A-weighted, as an 8-hour time-weighted average (85 dBA as an 8-hr TWA) using a 3-dB exchange rate. Exposures at or above this level are considered

hazardous. Noise and Hearing Loss Prevention | NIOSH | CDC Buy

Loss Research Program

Loss Research Program expanded to include activities based at the Pittsburgh Research Laboratory (PRL) and to a limited extent at the Spokane Research Laboratory (SRL). Initially, only about three researchers were involved in hearing loss research at PRL (Lotz, 2006a; NIOSH, 2006d). 1

Introduction | Hearing Loss
Research at NIOSH: Reviews ... The Hearing Loss Research Program is one of the first two research programs to be reviewed for NIOSH by National Academies committees. The review was conducted using evaluation guidance (referred to as the Framework Document) that was developed by the National

Reviews of ... A large number of noise-exposed workers within the services industry sector—the largest sector in U.S.

industry—have an elevated risk of hearing loss, according to new research from the National Institute for Occupational Safety and Health (NIOSH). The study of hearing loss in workers across a wide variety of service industries was recently published in the International Journal of Audiology. NIOSH Research Warns of Noise Hazards in Service Industry ... Evaluating whether the NIOSH Hearing Loss Research Program uses its inputs appropriately is complicated by two

factors. First, as a classic matrix organization that has its components within various NIOSH line organizations, the Hearing Loss Research Program does not really have its own budget and staff.

The eReader Cafe has listings every day for free Kindle books and a few bargain books. Daily email subscriptions and social media profiles are also available if you don't want to check their site every day.
