(PDF) Interaction between structural and geotechnical ... There are many situations for which interaction between structure and ground has to be considered. This involves important interactions between specialist structural and geotechnical engineers. During his career the author has encountered profound differences in approach between structural and geotechnical engineers often leading to a lack of understanding and difficulties in communication. Interaction between structural and geotechnical engineers ... A structure, its foundations and the surrounding ground interact with each other. Ground-structure interaction must usually be taken into account in design and this involves important interactions between specialist structural and geotechnical engineers. During his career the speaker has encountered profound philosophical differences in approach between structural and geotechnical engineers often leading to a lack of understanding and difficulties in communication. Interactions between structural engineers and geotechnical

... Interaction between structural and geotechnical engineers. This report has been prepared in the framework of the Co-operation in Science and Technology (COST) Action C7 for Soil-Structure Interaction in the Urban Civil Engineering. Based on a survey in 13 European countries and with additional input from the COST C7 members, the report focuses on several aspects effecting the interaction between structural and geotechnical engineers. Interaction between structural and geotechnical engineers As illustrated by this example of a foundation design a strong interaction between the structural and geotechnical engineers is indispensable for ensuring a safe and economic design. The Institution of Structural Engineers International HQ, 47-58 Bastwick Street, London, EC1V 3PS ... The interaction between on structural and geotechnical ... The interaction between geotechnical and structural engineering can be compared with the soil-structure interaction. To cut artificially the link between the structure and the soil makes no sense, but it is

useful to simplify the problem. Interaction between structural and geotechnical engineers The documents adopted in the countries of WG-B vary in the extent to which they promote interaction between geotechnical and structural engineers. In some cases, the parameters to be provided to the structural engineer by the geotechnical engineer are defined in national documents, in other cases the party responsibilities are not defined.
