Though computers have become more common, many academic libraries still lack automation of any kind. With the growing importance of the Internet and the proliferation of

electronic databases Introducing and Managing Academic Library Automation ... This article aims to give an overview of how the field of knowledge management may be applied to academic libraries. In an article published 15 years ago by Charles T. Townley, Knowledge Management and Academic Libraries (Townley, 2001), the author states that libraries do not manage knowledge as well as they manage information. Librarians are information workers, and it is therefore likely that knowledge management could and should be applied in academic libraries. Managing knowledge in academic libraries. Are we?
