Secretary Introduction To Information Technology 4th  
Edition A 1958 article in Harvard Business Review  
referred to information technology as consisting of  
three basic parts: computational data processing,  
decision support, and business software. This time  
period marked the beginning of IT as an officially  
defined area of business; in fact, this article probably  
coined the term. A Basic Introduction to Information  
Technology (IT) Lecture # 111/21/2012 1 2. □  
Information technology is the technology that uses

computing with high speed communication links to spread information from one place to another.□

Computer is a very important component of information technology□ The world has become “global village” due to advancement in IT.11/21/2012

2 Introduction to information technology lecture 1 ICT is the technology required for information processing, in particular, the use of electronic computers, communication devices and software applications to convert, store, protect, process, transmit and retrieve information from anywhere, anytime. INFORMATION

Information refers to the knowledge obtained from reading, investigation, study or research. LESSON 1

INTRODUCTION TO INFORMATION AND

COMMUNICATION ... Information technology is the use of computers to store, retrieve, transmit, and manipulate data or information. IT is typically used within the context of business operations as opposed to personal or entertainment technologies. IT is considered to be a subset of information and communications technology.
