Latin American State Building  
In The historical experiences of Latin America vividly illustrate that the two processes of state-building and nation-formation, still so often analysed separately, are best understood in relation to each other, and that the most successful nationalisms have been founded on a combination of civic and ethnic factors. Latinoamericana is a skyscraper in downtown Mexico City, situated in the historic city center. Its central location, height, and history make it one of the city's most important landmarks. It is widely recognized internationally as an engineering and architectural landmark since it was the world's first major skyscraper successfully built on highly active seismic zone. The skyscraper notably withstood the 8.1 magnitude 1985 Mexico City earthquake without damage, whereas several other s Torre Latinoamericana -
