According to the DVLA, the pass rate for manual cars is 47%, while only 39% pass with an automatic. Manual Vs Automatic Cars | MoneySuperMarket Manual gearboxes are straightforward - you manually change gear using the clutch and gearstick. But many cars labelled as ‘automatic’ aren’t straightforward. They might change gears automatically, but they aren’t all fitted with ‘traditional’ automatic gearboxes. In many automatic cars you can change gears manually too. Automatic vs manual - which should you buy? | Parkers Compare an auto and a manual fitted to the same engine, and you'll invariably find that the manual is more efficient, as the auto gearbox relies on engine power to shift gears. You'll also be... Manual vs automatic gearboxes -

which should you choose ... Better fuel efficiency - Overall, manual transmission engines are less complex, weigh less, and have more gears than automatics. The end result is that you'll end up getting more kilometres out of the petrol you pump in than you would with an automatic. Manual transmissions have been known to save drivers between 5% and 15% on their fuel costs. Manual vs Automatic car transmissions: Pros & Cons ... It's a widely-held belief that automatic cars guzzle more petrol than their manual equivalents. While that used to be the case as older models were fitted with a slow, three-speed transmission, automatic technology has hugely improved in recent years. In many cases, you may even find that you'll get more miles to the gallon in an automatic. Automatic vs manual cars: which is better? | RAC Drive By 1928, the first synchromesh manual transmissions were introduced, by General Motors' Cadillac division, which reduced the need for double-clutching and made manual-transmission cars somewhat easier to drive. Introduction of Automatic Transmissions Automatic vs. Manual: Car Transmissions Explained In this article, we will learn about Manual Vs Automatic transmission. Nowadays the cars that comes in the market equipped with either manual transmission or automatic transmission. The basic difference between manual and automatic transmission is that in manual transmission the shifting of gears is done by the driver and in automatic transmission the shifting of gears takes place automatically. Manual Vs Automatic Transmission - Mechanical Booster Despite the advantages of a manual gearbox, there are many reasons why an automatic may suit you better. For one thing, automatics are generally slightly heavier than

manuals, which benefits a car's matching ratio. In the case of the Ford Galaxy, the difference is 11kg. #24 Choosing a tow car - which transmission for towing ...
