Fronius TransTig 3000 Comfort Manuals | ManualsLib The TransTig is a completely digitised TIG DC power source. Alongside the different power categories from 80 to 500 A, the devices also vary in their mobility - from the mobile, portable device to the stationary, high-power complete system. However, they all have one thing in common - an extremely robust design for a long service life and an exceptionally self-explanatory operating concept. TransTig 3000 - fronius.com Manual welding systems from Fronius are also resistant to spray water, meaning

that they are also suitable for use under tough conditions on construction sites or during assembly. Furthermore, the TransTig will automatically switch to standby mode after an adjustable period of time, which reduces energy consumption. The TransTig is therefore the TIG device of choice for portable high-tech use. New TransTig 170/210 from Fronius | The Engineer The TransTig is a completely digitised TIG DC power source. Alongside the different power categories from 80 to 500 A, the devices also vary in their mobility – from the mobile, portable device to the stationary, high-power complete system.
