Technology degree program

prepares you to design, install, program, and maintain industrial machinery and automated

industrial control systems in entry-level technician jobs. Mechanical

Engineering Industrial Training

Certificate Sample Objective: To

provide delegates with the

necessary knowledge, skills and safe working practices to enable

them to safely undertake a range of mechanical tasks in an industrial environment. Course duration: 5

days. Pre-course requirement:

Delegates should have a basic

understanding of the use of hand

tools, along with an understanding of workplace health and safety. 5

day Mechanical Maintenance

Programme - SETA Training ... The

mechanical maintenance training

courses begins by providing the candidates with an understanding of fault diagnosis by analysing various symptoms. These symptoms include excessive heat, vibration, smell or changes in speed. The aim is to make the candidate aware of the possible outcomes if action is not taken once a fault has been discovered. Mechanical Maintenance Training Course Six Months Training for Mechanical Engineering Students. Six weeks / Six months Training for Mechanical Engineering Students are the most popular in today's market. They require an understanding of machines, kinematics, thermodynamics, materials science, structural analysis, and electronics. 6 months | Six Months
