Topics

Microbiology is the study of microbes that are practically invisible to the human eye.

Although microbes are usually associated with causing and aiding disease, they are essential organisms in the ecological world.

They allow for life to thrive and are of great interests for food,

scientific, and medical industries (Black, 2008).

Microbiology Essays: Examples, Topics, Titles, &

Outlines CiteScore: 5.7 i CiteScore:

2019: 5.7 CiteScore measures the average citations received per peer-

reviewed document published in

this title. CiteScore values are

based on citation counts in a range of four years (e.g. 2016-2019) to
