winding stators - generates good low speed start ability with 12 kV at 500 rpm. PVL Replacement Motoplat Compatible Ignition Coil - 105465 The most modern and best quality electronic ignition systems we have found for Moto Guzzi's (yes, in the world...) are made by Silent Hektik in Germany. We have used them for racing, road bikes that have dead CDI's that are unobtainable, Guzzi rebuilds etc. etc. and have been so impressed, that, (following lots of enquires from customers) we now offer them for sale from stock in the UK. MOTO GUZZI - ELECTRONIC IGNITION SYSTEMS Towards the end of the Lambretta production range, the Grand Prix 200 electronic scooter appeared with a totally new ignition system. The flywheel and stator

Manual Instructions

plate looked very similar to the original points system but instead of points and condenser it had an electronic black pick box (chopper) a different low tension coil and now had a different ignition coil which was square shape and red in ... Lambretta ignition options The electronic ignition has a hotter spark that can fire more rapidly giving you better starting (1-2 kicks) with better bottom-end and top-end power. A lot of customers say the bike runs better than it did brand new! Comes with everything to completely replace your entire ignition system all the way down to a new spark plug wire and boot. PVL Electronic Ignitions - Husqvarna (1971-01) In the-mid 1980's Motoplat introduced an electronic ignition system that fitted the Li
