Because this site is dedicated to  
free books, there's none of the  
hassle you get with filtering out  
paid-for content on Amazon or  
Google Play Books. We also love the  
fact that all the site's genres are  
presented on the homepage, so you  
don't have to waste time trawling  
through menus. Unlike the bigger  
stores, Free-Ebooks.net also lets  
you sort results by publication date,  
popularity, or rating, helping you  
avoid the weaker titles that will  
inevitably find their way onto open  
publishing platforms (though a book

has to be really quite poor to receive less than four stars).
