takes up the usual subjects of anatomy, physiology, hygiene, bacteriology, therapeutics, materia medica, dietetics, and invalid cookery. The recipes are good and the importance of properly cooked and daintily served food is emphasized. Primary Studies for Nurses. | JAMA | JAMA

Network Primary care is one of 30 specialties represented in the NIHR CRN and, in 2016, the NIHR celebrated the fact that one million people had actively participated in primary care research studies (NIHR, 2017). This was an impressive milestone. As the nursing role in primary care has evolved, so has the position of nurses in primary care research. Evaluation of a primary care clinical research nursing
