Structure Of Matter Study Guide Structure of Matter Study Guide. Almost all things are made of matter (excluding things like light and gravity). Matter is made of atoms which combine to form molecules. Atoms are in perpetual motion and the more energy they have the faster they move. We can measure matter's mass, volume, and density. Structure of Matter Study Guide - 7TH GRADE SCIENCE Matter exists in three phases or states: solid, liquid and gas. The phase depends on the motion of the atoms or molecules in the substance.

Solid: the particles in a solid are tightly bound together in a rigid structure and don't move very much. The atoms vibrate but can't change position. Liquid: the particles of a liquid aren't bound together as tightly as those of a solid, and can move around and slide past each other.
