Study Guide Nervous System
Biology The nervous system The nervous system includes the central and peripheral nervous systems. The sense organs, including the eye, contain receptors that are sensitive to stimuli and respond with... Nervous system - The nervous system - GCSE Biology (Single ... Name: Date: Block: Biology 12 - The Nervous System Study Guide 1. Explain how the nervous system is divided into subsystems. What is the main function of each subsystem? 2. Draw and label a simple motor neuron and state the function of each labelled part. 3. What are the three types of neurons? Describe each and state their function(s). 4. Biology 12 - The

Biology

Nervous System Study Guide The spinal cord of the central nervous system is a white cord of tissue passing through the bony tunnel made by the vertebrae. The spinal cord extends from the base of the brain to the bottom of the backbone. Three membranes called meninges surround the spinal cord and protect it. The outer tissue of the spinal cord is white (white matter), while the inner tissue is gray (gray matter). Human Central Nervous System Biology 12 - The Nervous System Study Guide. 1. Explain how the nervous system is divided into . sub-systems. What is the . main function. of each sub-system? 2. Draw and label a simple . motor neuro. n and state the . function. of each labelled part. 3. What are the three types of .
