The nature and extent of the Hispanic pedestrian and bicycle highway safety problem is not well known. It is apparent that a disproportionate number of the persons killed in highway crashes of all types are Hispanic immigrants. While the reasons for this over-involvement have not been determined, it has been suggested that cultural differences, The Pedestrian and Bicyclist Highway Safety Problem As It ... 1 GHSA's latest Spotlight on Highway Safety Report on pedestrian fatalities projected this uptick. Each year about 2% of fatalities resulting from motor vehicle crashes are bicyclists. In 2018, 857 cyclists were killed, 1 and recent research found that since 2011, an average of 55 additional bicyclists have died
