Economic and political outline United States ... Every economy is a political economy and the enormous success of the U.S. economy has been as dependent on our political system as on our economic system. Indeed, many of the problems that currently plague the U.S. economy are the result of our failure to hold on to the political wisdom that guided our Founding

Fathers. The Political Economy of the U.S. Constitution ... We develop and test a model of joint determination of the rate of economic growth and the results of presidential and Congressional elections in the United States. In our model, economic agents and voters have rational expectations. Economic policy varies as a function of control of the White House and the two-party shares in Congress. A Model of the Political Economy of the United States Political economy is the integration of political and economic factors in our analysis of modern society. Inasmuch as just about everyone would agree that politics and economics are intricately and irretrievably interwoven—politics affects the economy and the economy affects

politics—this approach seems natural. The Political Economy of Economic Policy - IMF F&D The United States is the world's largest economy, ahead of China.
