Endovascular surgery is a rapidly developing branch of vascular surgery. It evolved from the diagnostic techniques used to investigate damage to blood vessels caused by atherosclerosis or injury. Endovascular surgery is highly skilled and complex. Endovascular surgical techniques | The London Clinic Road Medical, Inc, Sunnyvale, Calif) combines surgical principles of neuroprotection with less invasive endovascular techniques to treat high grade stenosis in the carotid artery. The ENROUTE Neuroprotection System allows the surgeon to directly access the common carotid artery to initiate high rate temporary blood flow
