We became interested in an endogenous retroviral sequence called BANCR, which other than in some cancers, is active only in developing heart muscle cells in humans and larger primates like gorillas. Because the original viral infection occurred in a small primate ancestor, BANCR is not found in mice or other non-primates.

"Buy" them like any other Google Book, except that you are buying them for no money. Note: Amazon

often has the same promotions running for free eBooks, so if you prefer Kindle, search Amazon and check. If they're on sale in both the Amazon and Google Play bookstores, you could also download them both.
