This book addresses the question why humans are the only animal species that produce emotional tears. The book brings together relevant theories and research from very different disciplines varying from clinical psychiatry to evolutionary biology and even the neurosciences and anthropology. Specific attention is devoted to the evolutionary origins of crying, the (neuro)biological aspects, antecedents, intra- and interpersonal differences, individual and gender differences in crying Why Only Humans Weep: Unravelling the mysteries of tears ... Since ancient times, we have known that emotional tears are a unique human characteristic. Unsurprisingly, over hundreds of years, scholars from different backgrounds have speculated about the origin and functions of human tears. According to Charles Darwin, tears fulfilled no adaptive function. Why only humans weep - Ad Vingerhoets - Oxford University ...
